

TRAVERSING TABLEAUX

Materialist film experiments, raw video footage, performance-based interpretation, and virtual digitized simulations: Traversing Tableaux is about transitory moments; a fleeting, schizophrenic passage into the eclecticism of time. Viewers find a common conceptual thread that runs through the trajectory of this exhibition: the ephemeral act of being removed into a hallucinatory state, and then brought back to the crude, sensuous nature of consciousness. Featuring the work of eleven emerging artists, Traversing Tableaux waxes hypnotic, an explosion of thirty second to three minute shorts. Curated by Emilie Allen.
