

# VAPOURS DANCE EXPERIMENT WITH MARINKO AND SEALEGS

Modern Fuel, with CFRC and Tone Deaf 9, presents yet another installment in its Vapours series of experimental music, a concert featuring **Marinko** (St. Catharines, ON) followed by a dance party featuring cheap drinks and Kingston's own **DJ Sealegs** on Friday October 29, 2010.

Vapours is a semi-regular concert series hosted by Modern Fuel, the aim of which is to provide an alternative space for exploratory musical performances and to promote emerging experimental musicians both locally and nationally. This concert is the second in a series of experimental music events organized and promoted by Modern Fuel, CFRC, and Tone Deaf 9 from October 28 to Nov. 7, 2010. Stay tuned for further details. **Marinko**, based in St. Catharines, Ontario, is a DJ and visual artist, a member of the experimental turntablist trio Vinyl Interventions and the founder of the Ghetto \$y\$tem mobile sound system and music label. The evening will begin with an experimental turntable set from Marinko at 9pm, and evolve into an all-out dance party at 10pm, as Marinko is joined by CFRC's own **Sealegs**. Expect the two DJs to pull out all the stops and dig deep in the crates for an unparalleled tag-team musical adventure. Marinko will also be mixing live visuals at the event. Doors will open at 8pm with performances starting at 9. Tickets are sliding scale at the door with \$5 recommended for students, CFRC volunteers and Modern Fuel members, \$10 for the general public.
