

NO TWO ALIKE

Friday, November 30, 2012 to Saturday, December 22, 2012

As someone with a taste for art and culture, you won't want to miss *No Two Alike: Modern Fuel's Members' Show and Sale* this holiday season in Kingston. The exhibition will feature some of Kingston and Canada's foremost artists. From the beautiful ceramics of **Marney McDiarmid** to the edgy photographs of **William Weedmark**, there will be something for all tastes and budgets. You'll be sure to find the perfect gift for yourself or your loved ones. We are proud that all of the fantastic artists in the show are involved with Modern Fuel as members. The exhibition will proudly reflect the dynamic creative strength of our community, and it will give you a chance to catch up with the latest work of local artists, all while helping to raise funds for the continued success of Modern Fuel.

All works will be for sale through the gallery, with at least 50% of all sales supporting Modern Fuel Artist-Run Centre. The MF Member's Show & Sale will open with a reception on Friday November 30th at 7pm and will continue until December 22nd, 2012 during the regular gallery hours of 12 to 5pm, Tuesday through Saturday. On the opening night there will be 50/50 draw and a raffle for great prizes donated for our 35th anniversary by our many generous sponsors, so there is sure to be excitement, and other surprises.

Join us on November 30th and until December 22nd to support one of Canada's oldest artist-run centres. All funds raised will go towards Modern Fuel's programming costs and the artists that support us. With your help, Modern Fuel can continue with its support of emerging contemporary artists and art forms in our community.

Modern Fuel is a not-for-profit artist-run centre that supports innovation and experimentation in contemporary art. For over thirty-five years, we have been showcasing provocative work by emerging and mid-career Canadian artists from diverse cultural communities. Our members and visitors have come to expect high-quality programming that includes exhibitions, experimental concerts, workshops, lectures, and access to our new media workspace.
